Nano Technology

Degradable energies

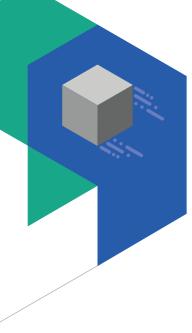

In order to move the exhibition online as the first virtual innovation exhibition in the country, the exhibition has been categorized in three categories. The stage, the meeting rooms and the exhibition space. Also, in order to create a feeling of actual exhibition, the best measures has been taken place to create the most realistic experience for the visitors while contacting the exhibition booths. Therefore, the exhibition location has been set at the innovation and technology park and the stage of this exhibition will be held offline with the half of space capacity to prevent the spread of the virus. Live videos from the stage will be broadcasted so that the visitors can watch the stage videos on the website. Also, visitors can click on the exhibition space they would like to visit, their options are: 3D booths, events such as mentorship pavion, investment café, Co-op and etc.

Face-to-face contact with thousands of developers, founders, experts, entrepreneurs and government officials.

Organizing a variety of business and promotional events at INOTEX, with the aim of examining the latest trends in innovation and technology and facilitating collaboration between companies and startups, and their relationship with investors.

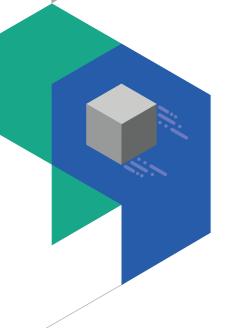

INOTEX Investment Cafe, INOTEX Stage, INOTEX Pitch, B2B Meetings, INOTEX Talent, Reverse Pitch, INOTEX Plus, INOTEX Co-Op, INOTEX Battle

■ Dynamic and entertaining events to find business partners in friendly environments, experience and touch the latest technologies and, as well as the use of startup services all in INOTEX 2020

Technology Experience, INO-Night, Startup Services, etc.

INOTEX Stage

■ Inviting well-known and influential international figures, inspirational lectures, surprising events, and the study of the world's trends and challenges, are among the programs that will be held at the exhibition's special stage.

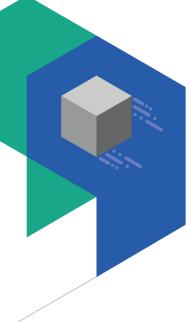

aparat.com/inotexevent

INOTEX Investment Cafe'

■ The INOTEX Investment Cafe is a special occasion for startup owners and startups to raise funds and negotiate with investors. Exhibitors and will be introduced to the respective investors according to the amount of capital required and their scope of activities and services, and special meetings will be arranged for them.

INOTEX Pitch

■ The startups' competition on the presence of investors and their ratings by leading Iranian and international referees are among the events of the INOTEX exhibition. The preliminary stage of these competitions was held in different provinces of the country and by choosing the tops of each city, it is possible to meet the investors present in the meeting with startups.

The top provincial teams, while receiving free booths at the INO-TEX exhibition, compete with other startups in the semifinals, and finally the top startups in the country prepare for the exciting INO-TEX Battle Final.

INOTEX Battle

■ In the semifinals of each startup, while presenting their business, they observe the other competitors and scrutinize them so that if they reach the final stage, they can compete with their competitors in the INOTEX Battle. They challenge and prove their superiority over the other finalists of the event.

INOTEX INOTEX Co-op

■ The main purpose of this section is to create a connection between startups and the relevant organizations and industry players. The connections created can be in terms of expanding market, cooperation, mergers and etc., in fact startups in the co-op can connect with the large industry players and knowledge based firms and benefit greatly from these meetings.

INOTEX Mentorship Pavion

In this section mentoring services will be available to suit the needs of every part of the innovation and technology ecosystem with having the special situation of the country in mind (I.e. the Crona virus and the economic complexities). People can choose their mentor from the list and set a time with them and reserve their meeting.

INOTEX Inojavan

■ Children and adolescents need to learn different skills in addition to the lessons and skills they are thought in schools. Skills such as personality and behavioral traits, communication and education which are all categorized under life skills. Apart from learning these skills children and adolescents need to learn business skills in order to create an innovative thinking mind set which is a necessity for the business skills.

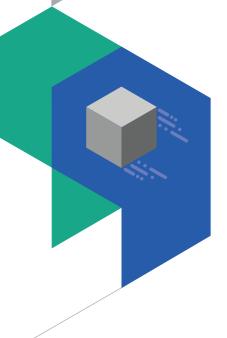

In the Inojavan section many workshops and educational courses are in place. Also with the participation of Inojavan startups, using educational and scientific tools and experiencing technology all coming together at Inojavan, has made it one of the most visited sections of the event.

INOTEX INOTEX Game

■ With the 9th exhibition being held online, a new section called INOTEX Game has been added to the event where visitors can compete in online based games. Leaderboards from these games will be shown to public.

INOTEXTechnology Experience

■ Knowledge based companies, universities, innovative firms and other are introducing new technologies each day. Though most these technologies are meant for B2B or B2G purposes, they can be used by visitors as an entertainment. Also many technologies can attract many visitors since they can be entertaining. These technologies will be showcased online in INOTEX.

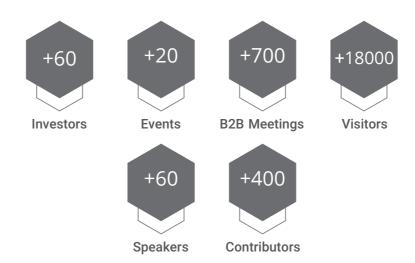

INOTEX InoNight

■ In the offline section of the exhibition, visitors can participate in the gathering planned at exhibition nights for networking and connection purposes. For this section educational plans, interactive games and entertaining sections has been designed.
